Elder Abuse Training for Clergy & Those in Ministry

Combating Elder Abuse in Cambria County

Every day, elders are being abused and exploited across the United States and right here in our community. Because elder abuse has become one of the most prevalent crimes of the 21st century, those in ministry need the tools to recognize, report, and stop the abuse, exploitation, and neglect of older adults. Abusers may be family members, professionals in a position of trust, or opportunistic strangers who prey on the vulnerable. This training is open to pastors, priests, deacons, religious, rabbis, Eucharistic Ministers and all those whose ministry touches older adults.
